

wisconsin's no call list has made a great difference in my personal life. I personally never, ever purchase anything based upon phone solicitations. So, any telephone solicitations to my home are a complete waste of time for the telemarketer and me. I believe that the federal no call laws are a great minimum standard and that wisconsin's no call laws are a great complement to that providing the extra protection that wisconites want. Please do not overturn our local laws.

Thank you.
